Powder Bottle

BlueSky

Powder Bottle

The Powder Bottle is a sustainable and ideal container for cosmetic, hair care, and body care powders.

Its ergonomic design provides a comfortable grip and allows for ease of application. With its sophisticated aesthetics and elegant shape, it adds a touch of elegance.

When combined with a Rotex closure featuring multiple holes, the Powder Bottle guarantees a smooth and high-quality powder application. It's the perfect container for various applications, including dry shampoo powder, styling powder, body powders, and cosmetics.

Aluminium Infinitely Recyclable

Aluminium is a modern-day super material when it comes to recyclable packaging, with each bottle and tin able to be recycled again and again without losing quality.

Plus, the enduring metal construction means tins and bottles often go on to have a second life with their owner, storing everything from buttons to bobbins.

A premium finish for any sector, aluminium solutions are ideal for personal care, home care or beverage products.
