Bluesky Closures *Range*

Welcome to our Closures & Accessories Range

Co-ordinating - **Global Sources**
Providing - **Unique Solutions**
Supplying - **From stock**

Over a decade of understanding our customers dispensing requirements has resulted in our extensive portfolio of **Closures and Accessories**, a collection covering many neck sizes and ranging from plain screw caps to sophisticated dispensing systems.

We understand that a combination of **Closures and Accessories** may be required to dispense the liquid products comprising your range, this has resulted in many co-ordinated options being available in the same colours and finishes.

We firmly believe container and closure compatibility is crucial, not only to ensure the integrity of your product but to enhance your consumer's experience, so they return to your brand, time and again. To this end our complimentary **SAMPLE EXPRESS** service allows you to conduct compatibility testing before launching your product, a service all our clients find invaluable.

You can rely on us, ISO9001-2008 certified, our commitment to quality, integrity and flexibility are key strengths that underlie our service; we are experienced at exceeding our client's expectations.

We understand too the issues created by high MOQs, back-orders and delayed deliveries, hence the majority of our **Closures and Accessories** are available **FROM STOCK**, held at our extensive distribution facilities **ready for immediate delivery** throughout the UK and Europe.

We look forward to discussing your product requirements in detail to assist you in ensuring your creation is presented to the marketplace in the perfect pack.

Fine Mill Closures *Range*

	Code	Description	Neck Finish	Style	Material	Liner Options

Bluesky Closures *Range*

“ We have dealt with Bluesky for many years and over that time they have become more of a strategic partner than a supplier playing a key role in our packaging development and selection process.

A friendly, no nonsense company, offering exceptional commitment to service and supply of our packaging needs.

Alan
R&D Director

In Addition to our Closures & Accessories Range

Bluesky Solutions core brands include:

Aluminium Range - Aluminium bottles and jars.

Healthpack Range - Packaging for solid and liquid dose healthcare

Zenith Range - Premium thick wall jars and Airless dispensing.

SkyPET Range - PET bottles and jars, offering clear advantages.

Dream Range - An extensive portfolio of HDPE and PP bottles and tattles.

Jars Range - a consolidated overview of our jar range.
